

Tri-Fold Reading Approach

Giving your child the gift of **Reading** will last a life time!!

CP Preparatory School teaches Reading using the **Tri-Fold Reading Approach**. It is a complete beginning **phonetic reading, writing, and spelling program** that systematically teaches decoding skills.

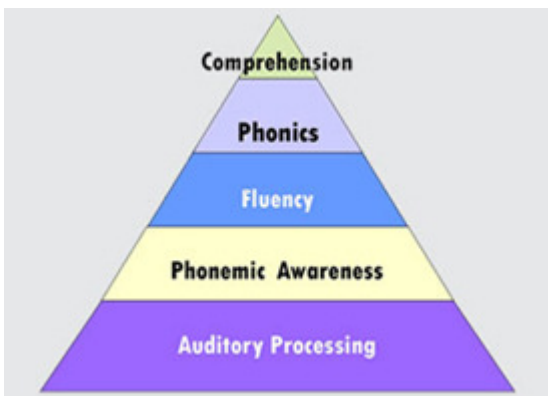

This is simply Phonics at its best!! Phonics is the **PROVEN** method to teach reading. When a child understands that words are made up of sounds, he then has the ability to build words he has never seen before.

Tri-Fold Reading Approach is:

- A multi-sensory approach to the reading process: visual, auditory, tactile, and kinesthetic
- Sound-symbol (letter) relationship
- Left to right blending strategies
- **Decoding** (reading), **encoding** (writing), and **spelling** as one subject
- Letter names and sounds in structured sequence to introduce blended sounds, words, sentences, and stories
- Word, sentence, and story **comprehension**

Tri-Fold Reading Approach creates:

1. **Motivated Readers**
2. **Students reading at or above Grade Level**
3. **Reading for Meaning**

5 Stages of Reading

are used in the

Tri-Fold Reading Approach

Approved and Mandated by the National Reading Panel!

CP Preparatory School begins our reading program at 18 months and upon completion of Pre-K students have mastered the Auditory Processing and Phonemic awareness and are ready to begin the phonics program in Kindergarten often reading 1-2 years above grade level.
